

WL-GI-600-11N

802.11n Wireless PCI Adapter

802.11n
up to
300Mbps
IEEE Draft 2.0

Next generation wireless.

Are you craving for a faster, more reliable Wireless connection? Feed up with the lack of speed of your existing 802.11g Desktop PC or Server?

Introducing a new member of the N-tensity™ range of 802.11n wireless client adapters from Dynamode. The new **WL-GI-600-11N** is a feature-rich 802.11n (Draft 2) Wireless PCI adapter which incorporates the latest MIMO wireless technology to boost wireless speeds and range of up to 5x the speed and around 6x the distance of current 802.11g WiFi devices.

Stream content-rich multimedia from your existing 802.11n Router direct to your PC and enjoy real-time movies without dropped frames, online gaming with improved frame rates or simply enjoy faster application times and improved wireless distance over your existing WLAN, all with the knowledge of a fully encrypted Wireless connection.

Also available in USB or PCMCIA CardBus formats.
